App

The diagram illustrates the layout of a 100MB file on a disk. It shows a horizontal bar representing the disk space, divided into segments. The first segment is labeled '100MB' and contains a series of small squares representing data blocks. The second segment is labeled '100MB' and is empty, representing a gap. The word 'App' is written in the gap. The third segment is labeled '100MB' and contains a series of small squares representing data blocks. The total length of the bar is 300MB.
